

International seminar at Amrita Vidyapeeth

Coimbatore: The first international seminar on precast, prestressed concrete was organised by Department of Civil Engineering in association with the Coimbatore centres of Association of Consulting Civil Engineers (ACCE) and Indian Concrete Institute (ICI) at Amrita Vishwa Vidyapeetham. The two-day conference concluded on Saturday. The conference saw participation of over 300 delegates and of the 862 paper submissions received, 233 papers were selected. The various entries and accepted manuscripts are submitted to 'IEEEExplore', an internationally accepted database and collection of articles available to the engineering community. Er.Inki Choi head design (Bridges) of L&T Construction highlighted the adoption of iconic bridges in India using precast prestressed segments.
